NEWS RELEASE

May 6, 2009

For Immediate Release

Contact: Chief Brent Dite

Road Construction Season Has Begun

For local residents of Morris and Grundy County, we tend to only notice road construction traffic when it effects our travel time to larger cities and other local communities while traversing the interstates.

Morris Police Chief Brent Dite would like to bring to the public's attention that recently, there have been notices placed on the stretch of Illinois Route 47 in Morris, known to our locals as Division Street, warning motorists to be cautious in work zones. The construction crews along this area are working between Benton Street and Illinois Avenue and they are focusing on their jobs, so it is important for us as motorists to pay careful attention to our driving habits, particularly in this area.

Chief Dite, not only wants to remind motorists about safety, Chief Dite wants the public to be aware of an added police presence in the area to monitor and enforce any infractions of the Illinois Vehicle Code. The sole purpose of the extra patrol is to keep both workers and motorists safe.
